The 3rd China Satellite Navigation Conference

(CSNC 2012)

Call for Papers / Announcement No.1

China Satellite Navigation Conference (CSNC) is an open platform for academic exchanges that aim at enhancing academic innovation to promote cooperation and exchanges in the field of satellite navigation, strengthening technological innovation to accelerate engineering construction of satellite navigation systems, intensifying theoretical innovation to facilitate theory progress of satellite navigation and reinforcing application innovation to boost scientific development of the satellite navigation industry.

The 3rd China Satellite Navigation Conference will be held in May 2012, in Guangzhou, China and it will incorporate a wide range of activities, such as academic exchange, high-end forum, exhibition as well as science popularization. Look forward to your engagement in this great event and contribution is welcome.

I . Conference Topics

- S01 BeiDou/GNSS Navigation Application
- S02 Satellite Navigation Signal System, Compatibility & Interoperability
- S03 Precise Orbit Determination and Positioning
- S04 Atomic Clock Technique and Time-Frequency System
- S05 Satellite Navigation Augmentation and Integrity Monitoring
- S06 BeiDou/GNSS Test and Evaluation Technology
- S07 BeiDou/GNSS User Terminal Technology
- S08 Satellite Navigation Scientific Application
- S09 Integrated Navigation and New Methods
